THE ALBUQUERQUE PUBLIC SCHOOLS

ALBUQUERQUE, NEW MEXICO

By: E. R. HARRINGTON

1963

INTRODUCTION:

The "Albuquerque Public Schools" is a history written by Mr. Harrington in an effort to record some of the facts of the early days of the school system before they should be forgotten. It is an important work for historians, researchers, and genealogists, as it contains hundreds of names of students, teachers, and administrators. The only tool that it lacked to be a really effective research source was a complete index. We have provided a surname index to all individuals and have also indexed the following subjects: Schools, School publications, Chapter headings, and School clubs and awards. We hope the index will further enhance a portrait of the fascinating growth of our city school system.

Please note that the author's reflections of the "present location of the Albuquerque High School" means the location at the corner of Central Avenue and Broadway as it was in 1963. Albuquerque High School is now located at 800 Odellia Road NE. Many of the other structures mentioned are no longer physically present, having yielded ground to more modern facilities.

In using this index, note that the pages indexed are listed but when a name or topic covered a continuous series of pages, a hyphen has been used, as 95-100 means the person or topic is mentioned on each page in that series.

Note also that the **designation "a" following a page number** indicates an unnumbered page of pictures that followed the designated page.

Laurel Drew, Librarian/Editor
